

INDUSTRIAL AIRCOOLER AURA-18H

CHARACTERISTICS

Water Tank capacity	260L
Air Flow	18000 CMH
Voltage	380V/220V
Electric Current	4.5A
Frequency	50-60Hz
Wind Pressure	180Pa
Power	1.1Kw
Water Consumption	6-12L/H
Dimension of air outlet	670mmx670mm
Overall Size	1100mmx1100mmx1960mm
Blower Type	Axial Flow Type
Casting Material	Plastic
Application Area	150-180 m2
Blade	3 Blade
Noise	≤75db
Air Out Way	Blow up with Duct

FEATURES

- Tank capacity: 260L
- Manufactured from high strength PP material for durability.
- Features high performance, large cooling pads.
- Equipped with 100 % copper winding motors for reliability.
- Highly efficient operation with minimal noise.
- Easy installation & maintenance.
- Advance design maximizes airflow coverage.
- Sleek and appealing design enhance any environment.
