

INDUSTRIAL AIRCOOLER AURA-05C

CHARACTERISITICS

Water Tank capacity	55L
Air Flow	6500 CMH
Frequency	50Hz/60Hz
Input Power	220 w
Overall Size	710*450*1050
Voltage	100-127v/220-240v
Speed	Three Speed, 1 Phase
Noise	<50DB
Blower Type	Axial Flow Type
Motor	100% Copper
Application Area	20-40 m2
Weight	23Kg

FEATURES

- Tank capacity: 55 L
- Manufactured from high strength PP material for durability.
- Features high performance, large cooling pads.
- Equipped with 100 % copper winding motors for reliability.
- Highly efficient operation with minimal noise.
- Easy installation & maintenance.
- Advance design maximizes airflow coverage.
- Sleek and appealing design enhance any environment.
